NATURAL RED

Ingredients: 100% pure henna powder

Our most beautiful natural red color, intense and warm. Very simple to prepare: mix with boiling water and apply immediately for 1 hour (light color) up to 6 hours (dark color). Good gray coverage. Nourishes, repairs and boosts hair volume.

RICH RED

Ingredients: 100% plant based, henna, brahmi, amla, shikakai, orange peel and manjistha powders.

Our "rich red" is a real head-turner: an intense deep red color, with an extremely natural glare. Very simple to prepare: mix with boiling water and apply immediately for 1 hour (light color) up to 6 hours (dark color). Excellent gray coverage. Nourishes, repairs and boosts hair volume.

AUBURN RED

Ingredients: 100% plant based, henna and amla powders.

One of the most unique red colors, this is our natural and elegant auburn. Very simple to prepare: mix with boiling water and apply immediately for 1 hour (light color) up to 6 hours (dark color). Excellent gray coverage. Nourishes, repairs and boosts hair volume.

BURGUNDY

Ingredients: 100% plant based, henna, red kamala and manjistha powders. Premium quality, fresh crops.

Our vivid yet natural burgundy color gives the most charming glare to medium dark hair. Very simple to prepare: mix with boiling water and apply immediately for 1 hour (lighter color) up to 6 hours (darker color). Excellent gray coverage. Nourishes, repairs and boosts hair volume.

HENNATURA

For naturally beautiful hair

Our red shades compared. Original color of the hair strand was a very light ash blond.
Mix prepared with boiling water.

Left: after 2 hours long application at about 40 C

Right: after 6 hours long application at about 40 C
